

METAPLAST

1100 Litre Wheeled Waste Container

WASTE LINE

Metaplast 1,100 litre Wheeled Waste Containers are strong and tough; effortlessly carrying loads of up to 440 Kg and providing many years of maintenance-free service.

Castors are equipped with 200mm diameter wheels and a brake.

The lid is easy to open and close. Lids can be supplied with a number of fittings including paper slots and mixed recycling apertures.

Features

Rear-loading; choose DIN or AFNOR standard lifting system

Castors designed to prevent dirt from sticking to wheels

Braked castor as standard (optional central brake system)

Customised options include paper slot, mixed recycling apertures and drop-front

Both container and lid can be printed with logos, instructions, etc. using thermal transfer graphics

Containers can be manufactured in a number of colours

Integral recess to protect RFID tags

Containers nest inside each other to save space in storage and fuel costs during distribution

Manufactured in HDPE (High Density Polyethylene), including UV stabiliser, making the containers resistant to sun light, frost and rain

100% recyclable at the end of its long working life
