

PET Bottles

A range of high quality PET plastic bottles for food and non-food liquid products

Metaplast manufacture a range of high quality, food grade approved, PET plastic bottles.

PET provides an economical and lightweight alternative to glass.

Our transparent bottles are as clear as glass, making them perfect for promoting attractive liquid products.

They are ideal for a wide range of liquids including fruit juices, dairy products, sauces, pharmaceuticals, lotions, household chemicals, lubricating oils, etc.

All bottles are reusable and 100% recyclable.

Features

UK manufactured
