Dispensing tap for Jerrycans with DIN 51 thread

Tap

Fitting:	Din 51 Thread
Description:	Fast Flow
Flow rate (LPM):	5 litres / minute
Colours:	Red cap with red tap

Palletisation

Qty per box:	250
--------------	-----

Metaplast dispensing taps allow for the fast and controlled pouring of liquids. Standard taps have a maximum flow rate of 1½ litres per minute, while our Fast Flow models dispense at up to 5 litres per minute.

Features

- Anti-glug pouring
- Ergonomic lever for smooth and controlled operation
- Food-safe
- Resistant to most chemicals and oils

Dispensing taps, combined with Metaplast Jerrycans, are ideal for use with a wide range of products including liquid foods, edible oils, hygiene & health care, detergents & household chemicals, industrial chemicals, agro-chemicals, lubricating oils, etc.

Compatibility

Some chemicals, and process parameters, can affect the integrity of the tap. The buyer must undertake testing and approval for the tap's suitability for the product and application.

Regulatory

Raw materials used are REACH compliant and UN approved for food contact.

Fast Flow Tap with 5 litres per minute flow rate
