

The UK's fastest growing container manufacturer

DIN 61 Vented Screw Cap

Metaplast screw closure suitable for plastic jerry cans with a 61mm DIN neck.

A ratchet band provides a superior tamper-evident seal and brakes reliable on first opening.

The closure is equipped with an EPE washer for safe sealing and a venting insert to protect against pressure variations in the canister, if critical products are filled.

SK 60/31 MAB MDR MPV D15 (DIN) Closure
