

WEEE Recycling Collection Tubes

Metaplast: Container producers
to the Recycling Industry

Metaplast Recycling Tubes provide a convenient solution for the collection of used batteries, vapes and other small waste electrical items.

Their attractive design with a clear tube, WRAP graphics and dished aperture encourages recycling in retail outlets, workplaces and other locations where small electronic disposal is required.

- Clear tube provides easy identification of contents and fill level.
- Small footprint is ideal for locations with restricted space.
- Carrying handles make full tubes easy to handle and transport.

Metaplast Recycling Tubes are ideal for any business looking to improve its recycling rates while reducing the amount of WEEE going to landfill.

Features

Manufactured in the UK

Available in two sizes: 10 and 20 litres
